Name: Yicun Deng
Class: M003
Date: 11/11/20
Chapter Number: #
Title of Chapter:

Module 12 Lecture
Module 12 Lecture
Cooperative is important and for a project, you need to have clear mind of what the challenge are and divide the challenges into small chunk of challenges
Typically Cleaning data, choosing model, analyzing data, visualize data, and wisdom. Ethics are important too, try to avoid built-in bias in the dataset.

Module 12 Roundtables
Module 12 Roundtables
Bumping is caused by oversell of airplane tickets, I had been bumped, its very bad experience.
Data analyze can help with reducing the chance of bumping passengers(our project)

Module 12 Interviews
Module 12 Interviews
Clear research questions is very very important!
Dividing the project and get a clear production line for the project is really important. Choosing the right model is important, re-checking the fitting of the model is really important too!

Question for Class
IMPORTANT: How are you? Have a good day!
